

Interstate Container Retail Ready Packaging

Lindt POP Display

Designed to Draw Attention

Interstate Container brings decades of experience in building retail-ready and point-of-purchase packaging to transform your concepts from possible to profitable. With design teams at each facility, we have the resources, the talent, and the vision to become an essential part of your overall merchandising strategy.

Retail Ready Packaging

Packaging that is ready for the shelf: easy to identify, open, replenish, display and dispose of.

Interstate Container creates compelling and sophisticated retail ready bins and counter displays for some of the world's most recognizable brands: Lindt, Moen, and Nestlé, to name a few.

We create the perfect package for transporting, displaying, and branding your product. We produce direct multi-color printed packaging and offer litho lamination when more striking graphics are required.

Point-of-Purchase (POP) Displays

Creative, engaging designs, matched with a protective structure.

Interstate Container offers innovation to solve your technical problems and inspiration to help you imagine new ways to attract attention to your product and brand.

Our POP displays can be printed in up to eight colors (8). The structural designs facilitate quick and easy installation, reducing both set-up labor and pack-out costs, and ensure accurate on-site assembly.

Custom Displays

- Counter displays
- End cap displays
- Floor displays
- Pallet displays
- PDQ trays
- Sidekicks/powerwings
- Temporary displays

About Interstate Container

For over 60 years, Interstate Container has provided high performance, durable and sustainable packaging solutions and services across the eastern half of the United States.

Backed by INDEVCO, a \$2B multinational manufacturing group spanning Europe, North America, Africa and the Middle East, and our parent company, Interstate Resources, Inc., Interstate Container combines global experience with local presence to provide innovative products and services that add efficiencies and cut costs at every step along the supply chain.

Let our team work for you.
